

Nominee for Director

Koreen Jervis, EA

Biography

Member of NAEA for 22 years and business owner for over 16 years. I am currently NYSSEA's 2nd VP and Conference Chair. I help coordinate our monthly Virtual CE Meetings and I am Pres. of the Bklyn/Queens Chapter. I am also on the board of The Make A Smile Foundation. I have two daughters, and looking forward to being a Grandma. I ran my first full marathon in Dublin in under 5 hours because I love to be challenged. I am not willing to do something unless I am able to give it my best and my job as an Enrolled Agent nurtures all my best qualities. The love I have for people and being able to help them are the main reasons why I love my profession.

Statement of Goals

My goal is to help NAEA develop and implement Educating America. I think our success as an organization lies with our youth. We have to do more to bring awareness and recognition to the EA profession by helping to create a viable curriculum to the colleges or creating a program that we can offer to the students to help them become Enrolled Agents. I feel that I can help with this.

What needs to change at NAEA and how would you contribute to that change?

I believe that there is quite a disconnect between NAEA and its affiliates. Without the affiliates, there is no NAEA. We are the ones that are encouraging EA's to join and maintain their membership. I do not see that NAEA is doing much to support our efforts. However, the recent changes that were made to have the smaller affiliate meetings is a step in the right direction. I was able to hear of the struggles and success some of our affiliates are having. I am willing to lend my support to those that need it. If we took one struggling affiliate at a time and work with them we can be stronger and our membership will grow.
