Statement of Goals

I believe the top priorities for NAEA are:

- Providing guidance to grow volunteer leadership
- Communicating with our members and state societies by having conversations to identify what is needed and generate ideas for appropriate responses
- Connecting with members where they are – reach out with a personal touch
- Continuing our advocacy work
- Acting as good stewards of our finances

What needs to change at NAEA and how would you contribute to that change?

NAEA has started making the changes necessary to improve this organization and there needs to be more communication with members and state societies along all platforms. We need to make sure that our members feel like they belong to an organization that is relevant to their careers and NAEA should play a part in helping members stay connected to each other. I can contribute to NAEA's culture of change by participating in the action plans for mentoring and growing leadership, reaching out within my state, and encouraging others to join and volunteer.
